## S. TO REJECT PARIS PROPOSAL

### TARIFF ROW

#### French Note Seeks Reciprocity.

Washington, D. C., Sept. 15.—[Special.]—Secretary Kellogg will reject the French proposal made today by the French government for the negotiation of a tariff arrangement between the two nations based on reciprocity of the unconditional most favored nation commercial treaty proposed by the United States. The French note was received at the state department late this afternoon, and was thoroughly disappointing to officials.

The statement was made unequivocally at the state department that the President nor the secretary of state had any authority at present to negotiate tariff rates with any nation different from the schedule of congress in the present tariff act.

## BritishFlyer Starts Flight Over Atlantic

### BULLETIN.

DUBLIN, Sept. 16.—[AP.]—Capt. R. H. MacIntosh hopped off from Baldonnel airfield at 1:34 p. m. (Dublin time) on a non-stop trans-Atlantic flight.

Capt. MacIntosh arrived at the Baldonnel airfield, Dublin, after a flight from Bristol, England, in his Fokker plane, "Princess Xenia," on Sept. 4, to prepare for his Atlantic flight. His purpose was to fly to Philadelphia as a contender for the \$25,000 prize offered by the Philadelphia Evening Bulletin for the first non-stop flight from a European capital to Philadelphia.

Adverse weather conditions prevented the attempt until this morning. Capt. MacIntosh is one of the three champion aviators in the British passenger air service from London to Paris. He has flown more than 4,000 actual flying hours, covering 350,000 miles, and carrying 7,000 passengers.

He is holder of the world's record for the London to Berlin flight of 454 miles. He made the distance with one passenger and 800 pounds of freight in four hours and 31 minutes.

### GENE HAS BEEN DOING PART OF HIS TRAINING ON THE GOLF COURSE

Will he observe the golf courtesy of shouting "Fore!" before shooting? No doubt golf has taught him the importance of keeping his head down. Correct timing and rhythm are most important factors both in golf and fighting.

Can he use a golf stance and still "keep the body balance"? He will not be penalized for getting in the rough. The explosion shot, if successful, takes a lot of sand-out of the other fellow.

Good putting is a sure way of keeping the score down—also the other fellow. The short game is most important. Golf will teach him the importance of keeping the muscles loose, the head steady, and also the tremendous value of confidence.

McAvoy saw a smoking package just inside a rear door, and without waiting to ascertain its nature grabbed it up and threw it through the door. He had seen no one near the place. Edward J. Calkley, superintendent of the factory, declared there had been no trouble of any kind and he could not account for the attempt to bomb his place.

The Youngs were having dinner together when the men burst through the door. Mrs. Young was bound with a pair of silk stockings and placed in the bathroom. Her husband who is recuperating from a surgical operation was similarly tied and stood in a corner.

Drawers were pulled out and the room torn up as the robbers searched for loot. They finally left after taking several valuable rings, earrings, and a platinum watch valued at a total of \$15,000, police were told.

Telephone wires in the room were cut and it was some time before the robbery was reported, the Youngs fearing to disobey the order not to step out in the hall. Sgt. John McGinnis and his squad investigated but could find no trace of the bandits.

## TROOPS GUARD GEN. PERSHING AND THE LEGION

### Cherbourg Greet's Returning Yanks.

CHERBOURG, France, Sept. 15.—[AP.]—The liner Leviathan, bearing Gen. Pershing and 11 contingents of American legionnaires to the Legion convention opening in Paris next week, arrived here this morning.

BY JAY ALLEN. (Chicago Tribune Press Service.)

With the communists threats in their hands, the authorities of this channel port, where in a few hours the Leviathan, flagship of the American Legion, is to dock, have massed an imposing number of troops and departmental gendarmes to check any possible outbreak. They have gone ahead with the plans to give the second A. E. F. a fitting welcome to France despite the government's warning that trouble lies ahead. The veterans' associations of Cherbourg are co-operating in the measures to preserve order.

The town has been combed for all known agitators. Personal representatives of Minister of the Interior Sarraute believe tonight that the coast is clear for the triumphant entry of Gen. John J. Pershing, Commander Howard Savage, and the many other legionnaires, who will arrive tomorrow morning.

Bar Set Up on Quay. Late tonight a large bar was set up on the quay where the landers will dock, and where the visitors will undergo a barrage of speeches. The bar is marked with a sign, the letters of which are three feet high. Barrels of beer were rolled up to the bar at midnight, as well as several cases of whisky.

The burghers of the port, still bursting with pride over the way they welcomed Col. Charles Lindbergh, are all set to repeat with the American Legion.

The officials were worried, however, over a delicate question of procedure. They consulted Parisian dignitaries as to whether Gen. Pershing or Commander Savage is the ranking leader aboard the Leviathan. They finally were advised that it should be Gen. Pershing, because of his past rank and his future prospects—for they have heard talk that he may run for President—and so "Black Jack" will be forced to bear three hours of Norman oratory.

Cherbourg's buildings are now almost hidden under tricolor bunting. French naval and military authorities are prepared to render full honors to the Leviathan. They will send airplanes to circle overhead, while all the guns in the region will fire salvoes. Extra troops have marched from nearby towns to strengthen the Cherbourg garrison and serve as a guard of honor.

The American cruiser Detroit is in the harbor ready to welcome the Leviathan. The sailors are to have shore leave tomorrow to cheer the legionnaires. Legion advance guard members have come from Paris to greet the flagship tomorrow morning.

Paris Gets Dressed Up. (Chicago Tribune Press Service.)

PARIS, Sept. 15.—Paris is working vigorously tonight to get all dressed up for the American legionnaires who will arrive tomorrow. Electricians worked long after midnight putting the finishing touches on the scores of welcoming arches on the boulevards, and the other electrical signs in Place de la Concorde, the Madeleine, the Opera and other centers where the legionnaires will congregate.

The Paris bound trains tonight brought straggling groups of former doughboys who have been spending a few days in the little villages of northern France where they were billeted or fought in 1917 and 1918. By tomorrow night it is expected there will be fully 20,000 in the city. The remainder are to arrive Saturday and Sunday.

Hundreds of Police Ready. Hundreds of police will be on hand tomorrow with the arrival of the boat trains bringing the Legion men from the flagship Leviathan, not so much to watch the radicals as to keep back the crowds expected to gather in Gare St. Lazare to get a glimpse of Gen. Pershing and the Legion leaders.

## CHICAGO COOL Retires on Eve of Inquiry Into Bank Rate Cut

### Torrid Wave Forces Coolidge to Rest.

(Picture on back page.)

Washington, D. C., Sept. 15.—[Special.]—Resignation of Daniel R. Crissinger as governor of the Federal Reserve board and its acceptance by President Coolidge was announced today.

Mr. Crissinger's action was made known on the eve of the meeting of the advisory council of the federal reserve board, which is to take up the question of administering a "spanking" to the board because of its forced and drastic reduction of the rediscount rate of the Chicago Federal Reserve bank.

It was denied by Mr. Crissinger that the controversy over the Chicago rediscount rate had in any way caused his action. He had contemplated resigning for some time, he said, in order to accept an offer to become chairman of the board of a local corporation, which is engaged in real estate financing operations. The resignation was effective today.

Successor Decided Upon. Mr. Crissinger's resignation was placed in the hands of President Coolidge on Monday, it was learned. The President has already consulted with Secretary of the Treasury Mellon and decided upon the appointment of a successor. Announcement of Mr. Crissinger's successor will be made at once by the President, it is understood. It is expected that the new appointee will succeed Mr. Crissinger as governor as well as a member, although it would be within the power of the President to designate one of the other members for that post.

An Apologist for Harding. The retiring federal reserve board governor was one of the so-called "Ohio crowd" brought to Washington by the late President Harding. Mr. Crissinger, a lawyer, banker, and farmer, was a neighbor and close friend of the late President at Marion, O.

Although a life long Democrat, he was active in behalf of Mr. Harding's election and at the start of the Harding administration was appointed controller of the currency. After two years in that office, which carried with it ex-officio membership on the federal reserve board, Mr. Crissinger, on May 1, 1923, was appointed by President Harding as governor of the board.

Central West May Get Post. Appointment of a new governor of the federal reserve board at this time may mean a shift in its controlling policies. Mr. Crissinger was one of the four members who favored the reduction in the Chicago rate, while three other members dissented. The majority has been regarded as a "low interest rate" group.

The new governor of the board is likely to come from the central states, and probably will be a banker. Of the five other appointive members, Edmund Platt of New York, the present vice governor, is a newspaper publisher; Charles S. Hamlin of Massachusetts, a lawyer; Edward H. Cunningham of Iowa, a farmer; George R. James of Tennessee, a banker; and Adolph C. Miller of California, an economist.

Members of the advisory council of the federal reserve board arrived today, in advance of their regular quarterly meeting, scheduled for tomorrow. Tonight they were the hosts at a dinner at the Waldorf.

One More Heat Death. One heat death yesterday raised the total number of fatalities to 30 during the four days in Cook county. Fete J. Frank, 45 years old, died at the county hospital after having been found unconscious in front of 2133 South Sawyer street suffering from prostration.

Stanley Zwick, 15 years old, 4539 South Albany avenue, sought relief from the heat in the lake at 13th street. He was seized with cramps and despite the efforts of two companions was drowned.

Frank Spaden, 33 years old, was overcome by the heat yesterday on an Evanston street car shortly after he had arrived to enter Northwestern university as a freshman. His home is in New York City.

Most of the employees at the city hall, the board of education and other public offices were released from their tasks at 3 o'clock because of the heat.

## HEAT RECORDS

The heat wave in its eastward movement brought record temperatures to eastern cities yesterday, and midwestern cities also sweltered before cool westerly breezes arrived. Following are maximum temperatures recorded yesterday:

Philadelphia, Pa.	94	Des Moines, Ia.	90
Pittsburgh, Pa.	92	Davenport, Ia.	90
New York City	90	St. Louis, Mo.	90
Washington, D. C.	90	St. Paul, Minn.	90
Westchester, Ala.	100	Nashville, Tenn.	90
Indianapolis, Ind.	94	Peoria, Ill.	90
ChicAGO, Ill.	94	Springfield, Ill.	94
St. Paul, Minn.	94	Kansas City, Mo.	94
Detroit, Mich.	94		

(Picture on back page.)

While Chicago and the middle west were enjoying relief last evening from the heat wave, which has broken records for four days and resulted in a score of deaths here, the torrid spell had swept on to New York and the eastern seaboard and was establishing new high mercury readings in that area.

In New York City a maximum temperature of 90 degrees was registered, the previous highest in 1915 when 88 degrees was reached. The mercury's climb in New York was from 65 degrees at 5 a. m.

102 Degrees in White House. Just after the return of President Coolidge from his summer camp in the Black Hills, Washington was experiencing a torrid wave, which sent the mercury soaring to 102 degrees at the White House. The President was forced to call off his day's work. The official temperature there was 96.

Other eastern points reported record breaking readings last night. At Baltimore five persons were overcome by a 97 degree heat, the highest ever reached on Sept. 15.

A cool high area which overspread the northwest yesterday and pushed eastward was responsible for the showers which brought relief in Chicago, according to Prof. Henry J. Cox, government forecaster. However, before the sudden change many points in the Midwest, including Chicago, sweltered.

The Chicago forecast was for cooler weather with showers followed by fair Friday, and Saturday and Sunday probably fair with moderate temperatures.

Mercury Drops in Afternoon. In Chicago the mercury climbed steadily until noon it reached 94 degrees, a record for Sept. 15. The previous high mark was 91 degrees, in 1917. Thereafter came a steady decline until at 4 p. m. the official reading was 81. At 9 last night it was only 76. There was a heavy shower in the afternoon.

Chicago's public schools will remain closed today, Monday, it was announced by J. Lewis Coath, president of the board of education. The schools were ordered shut yesterday by Mr. Coath, but considerable confusion prevailed, due to the lack of an official order to the principals, and it was nearly noon before many of the pupils had been sent home.

The closing order did not apply to night schools, and they will be in session tonight.

A school closing order was also issued in Winnetka, Wilmette, Glenview, Lake Forest and Highland Park. The only north shore school remaining open was the Evanston Township High school. All Catholic schools in Chicago were also closed yesterday.

One More Heat Death. One heat death yesterday raised the total number of fatalities to 30 during the four days in Cook county. Fete J. Frank, 45 years old, died at the county hospital after having been found unconscious in front of 2133 South Sawyer street suffering from prostration.

## Bind and Rob Ernie Young, Wife, in Hotel

Ernie Young, theatrical broker and booking agent, was held up last night with his wife, Pearl, in their apartment in the Davis hotel, 151 East Walton street, and robbed by two men. The loss, chiefly jewelry, was estimated at \$16,000.

The Youngs were having dinner together when the men burst through the door. Mrs. Young was bound with a pair of silk stockings and placed in the bathroom. Her husband who is recuperating from a surgical operation was similarly tied and stood in a corner.

Drawers were pulled out and the room torn up as the robbers searched for loot. They finally left after taking several valuable rings, earrings, and a platinum watch valued at a total of \$15,000, police were told.

## HURLS SMOKING BOMB TO ALLEY; SAVES GARAGE

Prompt action by Murray McAvoy, 1814 North Park avenue, a mechanic, in seizing a smoking bomb he found on the floor of the Newberry garage, 1025 North Clark street, and throwing it outside early this morning, probably saved the structure and its contents from serious damage. The bomb exploded as it struck the pavement of the alley, and the detonation aroused the entire neighborhood. As it was, the only damage was the breaking of a few windows in the garage. Many residents of the large apartments to the east of the garage kept their costly cars there. None of these was damaged.

McAvoy saw a smoking package just inside a rear door, and without waiting to ascertain its nature grabbed it up and threw it through the door. He had seen no one near the place. Edward J. Calkley, superintendent of the factory, declared there had been no trouble of any kind and he could not account for the attempt to bomb his place.

## Stolen Rifles Back; Bradley Credits Thieves

(Picture on back page.)

Proof that burglars sometimes are moved by sentiment to return stolen articles, priced highly by the victims, was given last night when Herbert E. Bradley, big game hunter, was informed by police that two rifles belonging to his wife, Mary Hastings Bradley, author and hunter, had been found in a deserted building at 2929 South Wabash avenue.

The rifles were stolen from the Bradley home, 5344 Hyde Park boulevard, on Aug. 6, when burglars got loot valued at \$10,000. One of the guns was especially prized by Mrs. Bradley because it was the principal one she used on hunting trips.

Returns Due to Sentiment. "I think it was a matter of sentiment," Mr. Bradley said last night. "The newspapers had several stories on how fond Mrs. Bradley was of the guns. That's the only reason I can see for their being returned this way. The robbers easily might have disposed of them at good prices."

At the time of the robbery Mrs. Bradley, who is now at Florence, Wis., with her daughter, Alice, 15 years old, said: "I wish I could go straight back to Africa where my things are safe. I'm beginning to think that the heart of Africa is safer than Chicago. We never thought of such a thing as a robbery there."

The Bradleys are not planning to start their next hunt for another year. Mr. Bradley said it would be to Indiana, but that the purpose would be to collect rare jewelry and not big game specimens.

Daughter Illustrates Book. "Alice in Jungland," Mrs. Bradley's new book, will be released from the presses next month. Illustrations for the book were made by her daughter, Alice, after much persuasion. "I don't want to be an artist," Alice protested. "They live in attics and have only one meal a day." But a substantial check for the work has somewhat appeased the girl.

**Villages Welcome Legion.**  
[Copyright: 1927: by the New York Times.] PARIS, Sept. 15.—Many of the French villages which were scenes of fierce battles have written American Legion headquarters welcoming the legionnaires. These include Montdidier, Arras, Sedan, Reims, and Bergues. The city of Melun expressed a desire to receive a visit from the American mothers. The mayor of Montdidier writes: "We have not forgotten that the taking of Cantigny by the Americans alone was the key to the great battle of Montdidier."

Crisians offers luncheons and visits to all points of interest free of charge to 500 legionnaires daily.

Legion officials, as well as directors of the Salvation Army and Knights of Columbus, and the women's auxiliary, laid tonight all preparations for the Legion reception was complete so far as they are concerned.

The Cours La Reine Legion hut is completed. There are a bank, lodging for officers, telephone, telegraph and cable offices, bureau of general information, a reading and writing room, a Salvation Army canteen, Knights of Columbus lounge room, clinic, and graves registration bureau. And although not half the Legion has yet arrived, the building is thronged. The Salvation Army succeeded last night in getting Premier Poincaré's consent to passing its 2,000 pounds of coffee through customs and today they are serving coffee free to all comers. Boughouts are being sold at the rate of 2,000 daily for a franc (5.9 cents) each.

**POSSES HUNT TWO WHO KILLED MAN, ATTACKED WIFE**

Hammon, N. J., Sept. 15.—[Special.]—Dr. William Lillendahl, 69 years old, of Millville, N. J., was murdered in a lonely by-road near here this afternoon in defending his wife, Margaret, 46 years old, from the attack of two Negroes.

Two pistol shots fired point-blank, severed his jugular vein. Mrs. Lillendahl, beaten, robbed of her rings and other jewels, maltreated and in a state of hysterical shock, was found an hour later and is in a hospital in a serious condition.

Hammon and its vicinity for twenty miles around, is aroused to night and volunteer posses are beating the wilderness-like area of scrub pine and thickets aiding state policemen, mobilized from all south Jersey, in search of the criminals.

Strict orders have been issued to bring in the prisoners unharmed. Three arrests have been made, but officials are frankly doubtful that they have the assassins.

**Body of a Noted Author Unidentified for 2 Weeks**

New York, Sept. 15.—[Special.]—The body of Lionel Strachey, 64, editor, author, and translator, of New York and London, was found among the unidentified dead at the city morgue today. The body was brought to the morgue Aug. 31, after he was killed by a locomotive, and remained unidentified until today, when Mr. Strachey's attorney, N. J. Falser, recognized it. He was a member of a distinguished English family.

**Public to Get Lessons in Turning In Fire Alarm**

Fire Commissioner Goodrich has inaugurated a plan of teaching the public how to turn in a fire alarm. Demonstration boxes have been installed at several places where those who desire to learn can obtain free instruction from firemen. These schools are in engine houses at 720 Sebor street, 4001 Fillmore street, 4005 South Dearborn street, 1042 Waveland avenue, 5701 Rossmore avenue and 4733 South Halsted street.

## MANY RESIDENTS OF LAKE FOREST FIGHT MOSQUITO

Want Control District to Curb Pests.

Pursuit of happiness, healthfulness and maintenance of property values were the stated reasons given by twenty-six socially prominent Lake Forest residents as the basis for a petition to the Lake County court that a mosquito control district be organized to include the holdings that make up north shore colony.

The petition was filed yesterday with County Judge Persons at Waukegan and he ordered that the hearing on the petition be set for Sept. 29. If the court finds that a necessity exists for anti-mosquito measures he will order an election which will determine whether a district shall be organized under the new state law covering that subject.

The names on the petition include Walter S. Brewster, Mrs. W. E. Swift, Mrs. Laurence H. Armour, Mrs. T.

Phillips Swift, Mrs. John T. Pirie, Mrs. Joseph M. Cudahy, Laura Shedd Schwegge, Carter H. Pittsford, Mary H. Dick, W. A. P. Pullman, Henry A. Runney, Mrs. Thorne Donnelly, Mrs. C. Frederick Childs, Sarah Brewster, Alexander H. Revell Jr., Farwell Winston, Josephine Laffin, Isabel Ryerson, Alice D. Scudder, Sophie H. Pirie, and Anna V. Viles.

The organization committee for the district, included on the petition, consists of Mayor Farwell Winston, Mrs. Walter S. Brewster, W. A. P. Pullman, and Calvin Trowbridge.

Mosquito abatement sentiment, it was said, has been spurred by the recent hot weather, though since the middle of August the pests have been considered a rather serious deterrent to outdoor affairs.

**Mosquitoes Bother Golfers.**  
Four of the golf clubs have been among the sufferers, although individual mosquito abatement measures had been taken at Glenview, Old Elm, Knollwood and the Lake Forest Saddle and Golf fields. Under the plan of the organized mosquito abatement district, a campaign for extermination of those insects at the source will be planned by engineers and the work carried on simultaneously.

If the Lake Forest action is carried through the court and election in the minimum time, it will be possible to include the budget for abatement operations in the 1928 tax levy. According to experts, the work can be done in time to be effective for next summer.

## GIRL PLANS TO START ATLANTIC FLIGHT SUNDAY

Refuses to Give Up Hop Despite Warnings.

Curtis Field, L. I., Sept. 15.—(Special.)—Ruth Elder, who arrived here today with Capt. George Haldeman in her airplane, the American Girl, to prepare for a hop across the Atlantic, spent most of the day shopping in New York.

The still appears undaunted in the face of protests against her hazardous undertaking and today, received the permission of J. J. Lannin, owner of Roosevelt field, the only field suitable for the purpose, to use the runway for the take-off. She plans to start the flight Sunday, if the weather permits.

**Two Women Contenders.**

With the season's mild weather rapidly drawing to a close, only two planes remain here as contenders for transatlantic honors, both scheduled to start Sunday. They are Miss Elder's and the plane of Miss Frances M. Gayson, who does not intend to take off until two weeks from now. A spirit of friendly rivalry prevails between the two young women.

"It will make no difference to me when Miss Elder starts," said Miss Gayson. "The only thing I'm interested in is to establish that transatlantic flying is safe if the proper type of plane is used and the flyer takes the proper precautions. I am going to prove that transatlantic flying is not predicated on good luck."

**Planes Ready for Air Derby.**

Roosevelt Field, N. Y., Sept. 15.—(AP)—Seven airplanes had arrived here today as the advance guard of the 57 entries in the Spokane Derby which begins Monday with its western goal at Falls field, Spokane.

Although no plane entered in the sport classification had appeared, officials said that seven were expected to take part in the race. The latest arrival is "Duke" Schiller's and Phil Woolf's "Royal Windsor," which abandoned the proposed Windsor, Ont., to Windsor, England, transatlantic flight.

**Judge Frees Partisans of Sacco, Vanzetti After Talk**

Aurora d'Angelo, 18 year old school girl, who was one of the leaders in demonstrations for Sacco and Vanzetti, and several other defendants arraigned yesterday in Judge Samuel Heller's Municipal courtroom, were lectured for fifteen minutes by the judge, who spoke in the constitution. They then were dismissed. They had been charged with disturbing the peace. Aurora thanked the judge as she left the court room.

**INVESTIGATE DEATH OF WOMAN.**

The coroner's office will investigate the death of Mrs. Stella Doris, 37 years old, 1041 W. Division street, who died yesterday of a Marfan-Washington condition of the heart, as reported to the police as a criminal.

Schlee and Brock are now in Tokyo, ready to take the first steamship bound for the United States which can carry the Pride of Detroit.

## BROCK, SCHLEE TO PACK PLANE AND SAIL HOME

Praised for Calling Off Ocean Hop.

(Copyright, 1927, by the New York Times.)

TOKIO, Japan, Sept. 15.—Having called off their projected Pacific flight, Pilots William S. Brock and Edward F. Schlee of the monoplane Pride of Detroit spent the day in affairs which must have seemed tame after their flight from Harbor Grace, N. F., to Tokyo. They visited the American embassy, where they met Admiral Williams returning from his China command. He congratulated them on their achievement, and praised their common sense decision not to attempt the Pacific flight. He told them he had lived on Midway island for ten years, and said: "Boys, it's a very hard place to find."

At noon the airmen lunched with the American association under the chairmanship of Ambassador MacVeigh. Mr. Schlee gave a brief and modest account of his experiences. Afterwards they called on the Japanese vice foreign minister and informed him of their change in plans.

Mr. Brock visited Yokohama in the afternoon and inspected possible landing places for the Pride of Detroit, which the flyers plan to carry to San Francisco intact on the steamer Korea Maru, which will sail on Saturday. Various alternatives are possible. It is probable the plane will be flown from

## ANOTHER AMERICAN SLAIN IN MEXICO; U. S. FILES THREE PROTESTS

MEXICO CITY, Sept. 15.—(AP)—David L. Fisher, an American citizen and chief clerk of the Southern Pacific railroad offices at Guadalajara, was shot and killed by a Mexican employe of the railway, according to a dispatch from the Guadalajara consulate. The Mexican is under arrest. The embassy has sent a note to the foreign office requesting that proper steps be taken for the punishment of the assassin.

**Arrest Killer of Harvard Man.**

[Chicago Tribune Press Service.]

MEXICO CITY, Sept. 15.—The Guadalajara police have arrested Javier Diaz, charged with the murder three months ago of Arthur Brewer, famous Harvard football player. Representations have been made by the American embassy to the foreign office to prosecute Diaz to the limit.

The embassy also demanded adequate protection for American lives and mining property in the state of Jalisco. It is reported that all foreigners at the Amparo and other American mines have fled to Guadalajara owing to the threatening attitude of the agrarians. The Mazatlan mine yesterday.

## MEXICAN BISHOP FREED ON BOND ON U. S. CHARGE

Tucson, Ariz., Sept. 15.—(AP)—The Right Rev. Juan Navarette, exiled Catholic bishop of Sonora, Mexico, was at liberty on \$2,500 bond tonight after his surrender to federal officials on an indictment charging him with conspiring to organize a military expedition against Mexico. The indictment alleges violation of the neutrality laws.

Federal officials declined to reveal details of the charges against the bishop, who was known here as one of the outstanding opponents of the Calles government. Bishop Navarette is said to have been friendly with Yaqui Indians, who rebelled against the government recently. He left Mexico a year ago to do some work in Nogales, Ariz.

## Maywood Parade Opens Widened Business Street

Formal ceremonies last night marked the reopening of Fifth avenue, Maywood's principal business street, widened and paved with concrete from Lake street south, almost to Roosevelt road. An automobile parade was followed by an address from Mayor Robert E. Lee.

## FIND 400 BODIES IN TYPHOON AREA; THOUSANDS LOST

TOKIO, Sept. 15.—(AP)—About 400 bodies have been recovered from the western part of the island of Kishiu, which was struck by a typhoon and huge tidal wave on Tuesday.

Dispatches report that 2,000 troops are assisting local organizations in the search for thousands of persons reported missing and in clearing up the debris.

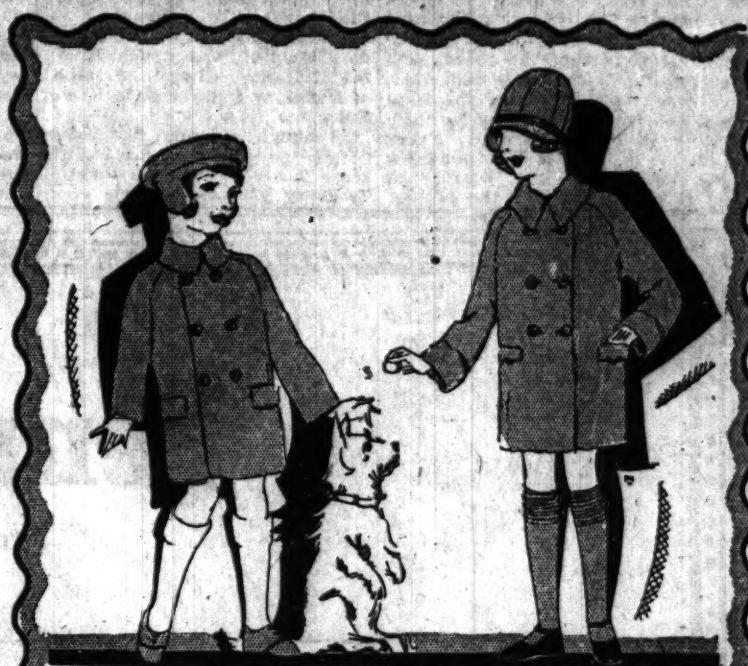

About 500 fishing boats were reported wrecked off Nagasaki, with a loss of at least twenty-five fishermen. At Kawahachi Hot Springs twelve hotels were swept away.

## CITES COST OF SILK STOCKINGS IN PAY APPEAL

The high cost of silk stockings for his daughters was cited yesterday by William McGarahan, chief rate clerk at the Grand avenue station of the Chicago and Northwestern railroad, as a reason why 5,100 men and women of the Brotherhood of Railroad Clerks and Freight Handlers employed by the railroad should receive higher pay.

McGarahan testifying before the federal arbitration board told of receiving \$6.66 a day and he had been in the railroad business thirty-five years.

The employees are seeking an increase of fifteen cents an hour. The raise if granted would boost the yearly pay roll by \$3,300,000.

## OFFICIALS ACT TO CUT CHILD AUTO FATALITIES

Schools, Police and Motor  
Clubs Co-operate.

Steps to protect the lives of school children from careless motorists were taken by school board, police, and motor club officials yesterday at the weekly meeting of district superintendents in the office of Acting Superintendent William J. Bogan. The action was spurred by the deaths of more than a dozen pupils in recent auto accidents.

Charles M. Hayes, president of the Chicago Motor club, offered \$1,000 in prizes for the best essays by school children on safety and for any other contests of this nature the school board may devise. He recommended that school teachers who are indifferent to this safety movement be reprimanded.

### Police Join in Drive.

Ira J. McDowell, deputy superintendent of police, agreed to institute the practice of having a policeman in each district inspect the student junior police patrol each week. He also said that streets adjacent to schools with no playgrounds would be barricaded.

El Mayer, president of the Illinois Motorists' association, suggested that teachers admonish the children before dismissing them for recess and for the day to be careful and to look out for other children.

Mr. Mayer also said that beginning Monday his association will employ an attorney for thirty days to investigate instances of disregard of traffic regulations where school children are involved. It is planned to inform the state's attorney's office of these cases in the hope that the maximum penalty may be sought.

### Toll Remains at 63¢.

No deaths were recorded yesterday in Cook county, the 1927 toll remaining 63¢.

Frank J. Allen and Harry Connor, La Salle street investment brokers, and F. Ewer, Cincinnati business man, were bruised and shaken up in a collision between their automobile

## TREASURY RECORDS BILLION AND A HALF BUSINESS IN A DAY

Washington, D. C., Sept. 15.—(AP)—Fiscal operations aggregating \$1,500,000,000 were recorded today on the books of the treasury.

In addition to flotation of two kinds of government securities, redemption of maturing issues of certificates of indebtedness, and payment of interest on obligations, the collection of third quarterly income tax installments figured in the operations.

Income tax payments due today were estimated at approximately \$465,000,000.

No total of \$500,000,000 came into the treasury's vaults as the result of the new issues of securities, consisting of six months certificates and three to five year notes. Both offerings were over-subscribed.

Maturity of two issues of certificates of indebtedness resulted in the paying out of \$280,000,000, while interest on the third Liberty loan, treasury certificates of indebtedness, and the first payment on the 1926-32 treasury notes issued last March at the beginning of the refunding of the second Liberty, aggregated approximately \$30,000,000.

Other minor transactions were expected to bring the total for the day to \$1,500,000,000. Additional financing to take place during this quarter includes further exchange of second Liberty 4 1/2 per cent bonds for 3 to 5 year notes which will close Sept. 29 and the refunding of the second Liberty which have been called for Nov. 15.

and one driven by David Chapman, 20 years old, 207 Main street, Evanston, at Main street and Michigan avenue, Evanston.

South Park Policeman Louis Turner was severely cut and bruised when he drove his motorcycle into the rear of the automobile driven by William Kaufman, 1908 South Troy street, at 31st street and South Park way. Kaufman was charged with reckless driving for having failed to give a hand signal.

## CRISSINGER OUT AS GOVERNOR OF RESERVE BOARD

(Continued from first page.)

a private dinner tendered to the members of the federal reserve board.

A lively discussion of the board's action marked the informal conversation around the dinner table tonight.

Members of the advisory council got first hand from the board members their reasons for the unprecedented action in the Chicago bank case.

The majority members of the board, who voted for the Chicago rate reduction, were armed with copies of the legal opinions on which they relied for their authority in initiating rates.

There was discussion both of the soundness of the theory that the board has power to fix rates and of the general

situation involving redaction rates in the various districts, including Chicago.

Frank O. Wetmore, chairman of the First National bank of Chicago and president of the federal advisory council, was unwilling to comment on the Chicago rate situation or the prospect of action at tomorrow's meeting. Advance information from Chicago has been to the effect that Mr. Wetmore proposed to ask the advisory council to administer a "spanking" to the federal reserve board.

Other members of the advisory council similarly refrained from public comment. The council is composed of one member from each of the twelve federal reserve districts.

John F. Burton of the Richmond district is vice president. Other members are Arthur M. Heard of the Boston district; James S. Alexander of New York; L. J. Rue of Philadelphia; Harris Cresch of Cleveland; P. D. Houston of Atlanta; Brockbridge Jones of St. Louis; Theodore Wolf of Minneapolis; F. W. Gobel of Kansas City; B. A. McKinney of Dallas; and Harry S. McKee of San Francisco.

At tonight's dinner, besides the appointive members of the federal reserve board, were Secretary of the Treasury Mellon, ex-officio chairman

of the board, and Controller of the Currency McIntosh, also an ex-officio member.

It was conceded by members of the advisory council that the Chicago rate situation is the most important matter scheduled for consideration at tomorrow's meeting. Whether a public announcement of the council's action will be made is yet uncertain. Ordinarily no announcements whatever are issued from the quarterly meetings of the advisory council. In the present case, however, owing to the wide interest in the matter a departure may be made from the usual rule.

Members of the federal reserve board, it is understood, desire that the advisory council should either announce its approval of the board's action or make public the reasons for failing to approve it.

## BANDITS SHOOT UP ROADHOUSE; ROB 15 PATRONS

Shots fired rapidly into the ceiling of Jim Malone's roadhouse at 25th street and Central Park avenue, Evergreen Park, served early this morning to introduce fifteen patrons to a bandit gang of six men, armed with sawed-off shotguns and revolvers.

The raiders then formed their victims in a line and marched them to a rear room, where they were ordered to face the wall with hands lifted. Two of the robbers acted as lookout while the rest took up a collection of money and valuables from the erstwhile merry-makers.

As they left the inn the men carried out a pair of slot machines, with the apparent intention of opening them up at their leisure. All the guests had departed before the police arrived.

Sgt. William Hall of the county highway force reported. According to Malone the gang took \$500 from the cash register and \$1,000 from the patrons, besides an unknown amount of jewelry.

## MEMO to the man about to buy a Fall suit

Maybe you haven't time to read all the style news—but you do want to buy your Fall outfit intelligently. You want to know that you're getting the right thing. Here are a few notes that you'll find helpful—and interesting.

First, what color should a suit be this Fall? You'll do well to make it a rich brown, a blue, or a medium or dark gray. As for patterns, our Society Brand Bristol Stripes give an indication of the trend. They're vivid, mighty smart—yet they keep within bounds.

Now for the model. The popularity of the three-button style is still in full swing. You can't go wrong in choosing a "Three." Many well dressed men are preferring the two-button coat, however, as a change. It's good either with peak or notch lapels.

After all, picking out a suit isn't so much a question of buttons! The real question is—"What makes a suit look well on me and where can I get that kind?" And the answer is—"There's just one thing that gives clothing its fundamental character. That's the cut." Any suit will look well if it has the right cut.

So that our final suggestion to the man buying a Fall suit is this:

Buy either a three-button or a two-button suit, as you please, but be absolutely certain it is distinctive in cut. In other words, be certain it's a Society Brand! The cut of these clothes is, and always has been, irreproachable. As for fabrics—choose a suitable Bristol Stripe and your outfit is sure to be a success!

# HANDED DUVALL \$14,500 BRIBE, WITNESS SAYS

Mayor Sold Political  
Plums, Jury Told.

BY JOHN BOETTIGER.

Indianapolis, Ind., Sept. 15.—(Special)—John L. Duvall, on his way to the chair of the mayor of Indianapolis, asked out for hard cash and votes the political plums he was to hold when elected, according to the testimony of the first two witnesses heard today in Duvall's trial for political crimes.

One witness was "Old Bill" Armitage, who rose from a lowly start as a hawker, became a professional gambler with a notorious place called the "Best Upside Down," and more recently was the maker of mayors in Indianapolis, the big boss of the town's politics.

The second witness, whose tale was even more dramatic than that of Armitage, was William C. Buser, now a manufacturer of railroad ties, but once an influential member of the Armitage crew.

Tell of \$14,500 Pack. They described a pack by which they were to swing \$14,500 and all the votes they controlled, and which they said they did swing, to Duvall. In return, they said they were to reap the gold and glory attendant on control of the board of public works, where rich improvement contracts are let.

But Duvall didn't deliver, the witnesses related. After he had become mayor he switched on the pack, the two men declared, and informed them he would not name their selections for the plums they had picked. He returned part of their money, they said.

Both men had a warm time of it on the stand, especially when Attorney Michael Ryan, chief defense counsel, began his bombardment of their testimony, but both weathered the shelling with only minor discrepancies in their stories.

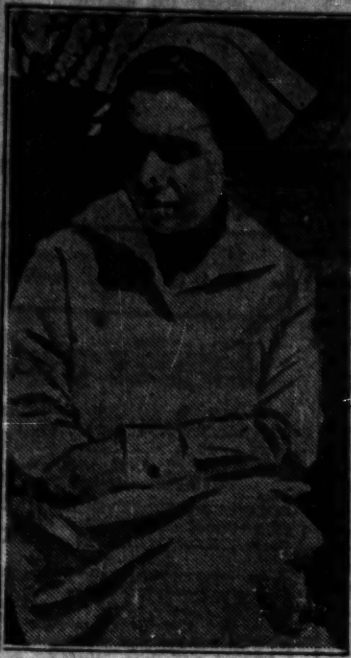

May Bar Other Offenses. When the state introduced another witness for the purpose of proving a series of other political promises alleged to have been made by Duvall, the defense objected.

Judge Shirley indicated he would not permit the state to go into matters other than the actual offense charged in the indictment, but said he would withhold his ruling until tomorrow morning.

Freeman took the stand in the late afternoon. He said he knew Armitage as a political leader and that he knew Duvall also.

"Did you have a conversation with Armitage before the election in 1927?" asked Special Prosecutor John W. Holloman, who, with Deputy Prosecu-

for William H. Sheaffer, prepared the state's case.

"Yes, sir," replied Freeman. "And after that conference, did you go to see Duvall?" A—Yes, at Duvall's home.

Says Duvall Made Proposition.

Q—What was said there? A—I said to Mr. Duvall, "I have been told there are certain things you want me to do, and that you want to make me a proposition, and I want to hear them from your own lips." He said in reply, "I want you to help me be elected mayor. If I am successful I want you to remain as a member of the board of works, and I want you to be its president."

Q—Did he tell you who else would be on the board? A—Yes, sir. He said Ernest Kingston would be the other member, and Mr. Linkenfelter would be the city engineer.

The state has charged that Duvall, in return for the money and support given by Armitage and Freeman, agreed to appoint Freeman, Kingston, and Linkenfelter.

Claims Duvall Asked for Cash.

"Was anything said about Duvall having entered into an agreement with Armitage?" the prosecutor asked.

"He said his agreement with Mr. Armitage would be kept fully upon his word of honor as a Mason," Freeman replied. "He told me not to be out in the open for him, but to work for him in the background, because he did not want it known that Armitage was supporting him."

Q—Was anything said about money? A—Yes, sir. Duvall asked me for \$3,500. I said, "What for?"

and he answered, "Why, for this position I am offering you."

Q—Did you put up the money? A—No, sir. I said, "Mr. Duvall, you know that is against the corrupt practices act, and that it is a penitentiary offense." He made no reply.

Q—Was anything said about his use of the money? A—Yes, he said it was for his personal use.

Q—Did you give any funds for the Duvall campaign? A—I gave \$500 to Mr. Armitage for the general fund used in his campaign.

The witness was then turned over to Mr. Ryan for cross-examination.

"Notwithstanding the fact that Mr. Duvall demanded a bribe of you, \$3,500 for his personal use, you afterwards told him you would be glad to work for him, and accept the position on the board of works, did you not?" the lawyer asked.

"That is so," Freeman replied. "I remember telling him that the gentlemen he had agreed to appoint were fine gentlemen, and that I would be pleased to work for his election."

Attorney Ryan, going into the return of the money by Duvall, asked Freeman what he knew of it.

"Buser (William C. Buser, the mayor's brother-in-law) returned the money," was the answer. "He brought it to Armitage's office and slipped it through a crack in the door."

Q—And how much was there? A—There was \$12,500.

Armitage had testified that Buser brought the money to his (Armitage's) house, that no one else was present, and that the sum returned was \$12,000. Armitage's testimony was that the sum was \$2,500 short, a total of \$14,500 having been given to Duvall.

Bares Early Career.

Armitage was a picturesque witness. Dressed in a natty gray sport suit, he quite looked the part of the big time politician, but more convincing of this fact were the huge diamonds that glittered on finger and tie. They were rocks, court attaches gaped.

Most of his early career was brought out by Attorney Ryan in the cross-examination.

Q—Aren't you running a gambling place now? A—Absolutely not.

Q—When did you enter the building material business? A—When Mayor Shanks was elected (1921).

Q—Did you have any money invested? Any equipment? A—I didn't need any. I just got the contracts from the city, and let somebody else take the work.

Q—You carried a key to Mayor Shanks' office, didn't you? A—Yes, sir, I had a key to it.

Testifies to \$14,500 Bribe.

Under the direct questioning of Prosecutor Holtzman, Armitage told of his meetings with Duvall, finally ending in an agreement he would support him for mayor. He said he had demanded the right to name the two members of the public works body and the city engineer, and Duvall demanded \$10,000 in cash in return. Armitage assented to the terms and paid the money in two currency bundles, he testified. Later, during the campaign, Duvall asked for more funds and was given an additional \$4,500, Armitage testified.

But shortly after election Duvall summoned him to Pekin, Ill., and later motored with him to Springfield, Ill., where he told him it was all off, that he could not go through with the deal, and would return his money, the witness said.

## SMITH POPULAR CHOICE OF PARTY IN PENNSYLVANIA

Predict He Will Have at Least 60 Delegates.

BY ARTHUR SEARS HENNING.  
(Chicago Tribune Press Service.)  
Pittsburgh, Pa., Sept. 15.—(Special.)—Pennsylvania Democrats, according to surface indications, are going to be overwhelmingly for Al Smith for President in the Democratic national convention next year.

This is what Democratic leaders are saying in Philadelphia, Harrisburg and Pittsburgh. Democratic National Committee member Joseph P. Guffey has received letters from local leaders in 80 per cent of the counties which indicate that Smith will have a large majority of the Pennsylvania delegation of 75.

Counts 60 Votes for Smith.  
"There will be at least 60 Pennsylvania delegates for Smith, maybe more," said Mr. Guffey. "There has been no booming of Smith, no drive for delegates for him. The governor won't permit it. The sentiment for his nomination has not been artificially stimulated. But there is no galling the fact that he is the popular choice of the Democrats of this state for the nomination. And what is true of this state seems to be true of a good many other states. I look for his nomination by the third ballot."

In the 1924 convention, the largest number of votes given Smith by Pennsylvania on any ballot was 39 1/2. McClellan had 25 1/2, with the remainder scattered. That Smith should be stronger now is not surprising. The McClellan faction has gone to pieces. Smith is the outstanding figure in the party and the Anti-Saloon Democrats have no candidate to pit against him.

McCormick Opposes Gov. AL.  
Vance McCormick of Harrisburg, dry Democrat and former Meadeo leader, inveighs in his newspaper against the nomination of a nullificationist, referring apparently to Smith, though he does not name him. He says Democrats must realize that "no man who stands on a nullification platform can hope to win." But Mr. McCormick proposes no alternative to Smith for the nomination.

Ever since William B. Wilson, a dry, was the Democratic nominee for senator in this state last year the dry Democrats have maintained that the Pennsylvania section of the party is dry and therefore will be against Smith. There is considerable evidence, however, that large numbers of wet Democrats were too busy elsewhere on that primary day to vote in the Democratic primary, being engaged in voting in the Republican primary for Bill Vane.

The fact undoubtedly is that the same forces are operating among Pennsylvania Democrats to elect where. The impression is steadily deepening that Al Smith is the only Democrat who stands the ghost of a chance of defeating the Republican candidate for President next year and even his chances are none too alluring.

Religious Opposition Warning.  
One circumstance that impresses the observer is that there seems to be a warning of opposition to Smith on religious grounds. Many Democrats are of the opinion that Smith's reply to Marshall punctured the opposition to him on this score, at least within his own party. There is no Smith organization in the field, no organized booming of the governor. His candidacy is merely rolling along, getting bigger and bigger and gathering momentum like a snowball on a hillside.

Less and less is heard of other aspirants, such as Gov. Ritchie of Maryland and Senator Reed of Missouri, both wets. If the Smith candidacy rolls on at its present rate it won't take the convention very long to nominate him.

Right up to the minute! You'll find our styles for Fall lack nothing of spruceness that modern good dressing demands.

Among our Fall sack suits—mostly exclusive patterns—we feature 2- or 3-button coats, single or double-breasted; collars with peaked or notched lapels; patch pockets if you like.

Overcoats equally distinguished.

Socks, shirts and ties of similar exclusiveness.

Everything for Fall.

## EDITORS PLEDGE AID IN DRIVE TO CLEAN UP POLITICS IN INDIANA

Indianapolis, Ind., Sept. 15.—(Special.)—Editors of Republican newspapers in cities outside Indianapolis who are aiding the attempt to uncover Indiana political corruption, met here this afternoon at the call of Mrs. Ed Toner of Anderson, publisher and widow of a man who was defeated for the Republican nomination for governor by the Klan.

Prominent in the group was Thomas Adams of Vincennes, who first made the corruption charges. The meeting drafted an announcement, which will be released tomorrow when all papers, in turn, have agreed to it. The statement calls for a reawakening of good government forces in Indiana and pledges support of these papers in the effort to force a showdown.

## SUPPORT LOWDEN OR DAWES, PLEA OF FARM LEAGUE

Farmers and friends of agriculture in Illinois can feel proud that thus far the only men prominently mentioned for President whose position on agricultural matters they know and approve both come from this state, the executive committee of the Illinois Agricultural association asserts in an announcement today endorsing former Gov. Frank O. Lowden and Vice President Charles G. Dawes.

"We urge that only those delegates pledged to candidates whose position is known to be fair and favorable to agriculture be sent to the national convention," the committee asks.

"The farmers have the largest stake of all in national affairs. There never was a time in the economic history of the United States when it was so important for farmers to concern themselves over policies of government. Nor has there been a better time since the civil war for them to impress their influence on political history."

## Start Work Sept. 21 on Crawford Bridge on Canal

President Timothy J. Crowe of the Sanitary district, will turn the first spadeful of dirt on Sept. 21 in commencing the beginning of work on the \$1,000,000 bridge across the sanitary canal at Crawford avenue.

This bridge, Mr. Crowe said, has been needed for several years. At present motorists in the vicinity of Crawford avenue must detour to either Cicero or Kedzie avenues, in order to cross the channel.

## Youthful Lawyer Enters Job as Asst. U. S. Attorney

William Parrillo, 24 years old, 2301 Taylor street, was inducted into office yesterday as an assistant United States district attorney by United States district attorney George E. G. Johnson. Attorney Parrillo is the youngest assistant in the district attorney's office and will handle liquor and libel matters. He is a graduate of the 1926 class of the Chicago-Kent college of law.

## FIELD ON MANSLAUGHTER CHARGE

A woman's fury yesterday held Brian Johnson, 24, 2153 South Halsted, on a charge of manslaughter for the killing of Jack Schneider, 32, 730 West 31st street, hit by a stray bullet on Aug. 28.

## "MAYOR JIMMY" TAKES A SLAM AT APOLOGETIC YANK

(Chicago Tribune Press Service.)

PARIS, Sept. 15.—Casting aside for a few moments the wise cracks which kept 400 members of the American club in hysterics this noon Mayor Jimmy Walker of New York, announcing that he was in a "serious mood for a change," delivered a broadside against apologetic Americans abroad.

Addressing the guests as "fellow refugees from the eighteenth amendment," he suddenly lost his smile and launched an attack against those who are "red hot Americans at home, but lukewarm Americans abroad."

"I have no patience for the man who is a 100 per cent American when gaining American dollars at home, and one-half of one per cent American when spending American dollars abroad," the mayor said. "Intelligent Europeans become disgusted with Americans who always are apologizing for their country. Some people I have in mind are not only Americans, but hold American posts in foreign countries."

The genial mayor, who has not been exactly a Volsteadian during his nighty trips to the Montmartre district, glanced at the assortment of bottles which dotted the table, and said:

"I will tell the folks at home about this. I will tell them they ought to bring the constitution back to normalcy. I awoke at noon today an ardent prohibitionist, but after this meal and these wines, I am no longer one."

## Two Girls Seized as Aids of Pair of Coat Snatchers

When two youths snatched a coat from Mrs. Lillian Lusenbark, 1716 Maypole avenue, as she neared her home last night, her just screams attracted the attention of a detective bureau squad, who caught the pair after a short chase in which several shots were fired. The youths are Raymond Heston, 25, and David Wilson, both of 1517 Warren avenue. In their room the squad arrested Alice Fisher, 22, of Elgin, and Ona Whisler, who claimed to be Wilson's wife. A quantity of jewelry and fountain pens was found in the room.

## CANADIAN TAKES JAIL SENTENCE TO U. S. COURTS

J. W. Purdon Will Appeal  
in Divorce Case.

The federal courts will be asked a second time today to intercede in the divorce court troubles of John W. Purdon, wealthy insurance man of London, Ont. Purdon was sent to the county jail yesterday by Circuit Judge Otto Kerner, when he was found guilty of contempt for failure to pay \$200 and money to his former wife, Mrs. Margaret Belton Purdon, 4889 Kenmore avenue, daughter of George Belton, head of the Belton Lumber company of Ontario.

Purdon's attorneys, Richards & Donovan, planned last night to seek a writ of habeas corpus in the United States District court this morning to release the prisoner on the contention that he is a subject of England and that the state courts erred in holding him accountable in domestic litigation under the statutes of Illinois.

Purdon made a former appeal to the federal bench on a similar contention last June, requesting an injunction to restrain Circuit Judge Ira Eyer from signing a divorce decree. Attorney Lloyd A. Faxon, representing the wife, defeated this move, arguing that the state courts had jurisdiction because the alleged act of adultery took place in Chicago. Mrs. Purdon won her decree.

The contempt citation was pronounced on unusual grounds in that the wife concerned was the court's allowance for Mrs. Purdon to oppose her former husband's appeal of the divorce decree. Almost all contempt cases in the divorce courts are for failure to pay alimony. Mrs. Purdon was represented by Attorney F. B. Teed.

## WING-FLAPPING PLANE, FOOT PROPELLED, WILL BE GIVEN PUBLIC TEST

Cocoa, Fla., Sept. 15.—(AP)—George R. White, former army aviator, who is experimenting secretly here with a wing-flapping, foot-propelled flying machine which he calls an orthopter, expects to take the contraption out in a few days and "step on it" in public. He told an Associated Press correspondent this today after permitting him to view the strange machine, which resembles a huge bird. White said he hoped to fly over Cocoa, attaining a speed of forty miles an hour.

White today explained everything except the motive power. Beyond saying that the ship would be driven by the feet in a "simple application of motive power," the inventor had nothing to reveal about the power mechanism.

White said he believed the foot power would apply sufficient force to flap the wings of the machine at the rate of eighty beats a minute with slight physical exertion. The orthopter weighs only 100 pounds, although it has a wing spread of 35 feet and the fuselage measures eight feet in length.

## EX-CAPT. MURPHY ASKS COURT TO REVIEW OUSTER

Former Police Capt. Daniel Murphy, seeking a reinstatement, filed a petition for a writ of certiorari yesterday asking the Circuit court to review his case before the police trial board, which ordered his discharge a few weeks ago. The bill charges that the board was prejudiced against him because it was subservient to Mayor William Hale Thompson, who believed the police officer had campaigned for Mayor William E. Dever.

The petition charges that the board refused to hear defense evidence which would have refuted testimony of witnesses for the prosecution. The conduct, it is alleged, was in accordance with a conspiracy to deprive him of his position in the police department.

## VOLSTEAD LAW EXPANDS JAILS, GERMAK CHARGES

Lays Corner Stone for the Largest in U. S.

(Picture on back page.) The corner stone ceremonies for the new \$7,500,000 county jail and Criminal courts building, to be ready April 1, 1928, were held on yesterday as a fitting occasion for the laying of the corner stone of the new building.

"This building that we are laying the corner stone for today," he said, "is a concrete example of the utter necessity for modifying the Volstead act to bring back to America the personal liberty which was guaranteed by the framers of the constitution of the United States."

Business Anti-Saloon League. "If the Anti-Saloon League had not converted the people—or a part of them—to the belief that prohibition would do away with the need for penal institutions, county jails and criminal courts buildings, I do not believe we would be gathered here to lay the corner stone of these buildings today."

"Too many American citizens believed that league's false propaganda and were willing to make the prohibition experiment, hoping that the ideal situation for the American people could be forced on them against their will. You have seen the result—run running, bootlegging, beer running, drunken automobile drivers, murder, death, destruction of property, pauperism, insanity, wood alcohol deaths—and the need for more jails and penitentiaries for any crime and other institutions to care for the increasing number of victims of the illicit distilling and brewing."

After Volstead Law. "When I caused an investigation to be made of the results of prohibition I found an increase of 704 per cent in the number of drunken automobile drivers, 168 per cent more disorderly cases, 74 per cent more prisoners in the county jail, 23 per cent more cases of murder, robbery with a gun, bur-

No more washboard scrubbing—no boiling

INSTEAD of rubbing out dirt (and rubbing out the life of your clothes) try this gentle new soap-and-rinse way!

Just use Rinso in place of ordinary soap. It's all you need. It gives thick, creamy suds even in hard water. Not frothy soap bubbles—but suds.

A tubful of these sparkling suds will soak your wash spotless. No boiling, no scrubbing, no washboard—just soap and Rinso! See if this safe, easy Rinso way doesn't get clothes whiter!

So easy on hands, too. Keeps them from getting red and raw. Great in washers! The makers of 30 leading machines endorse it.

**WOMEN!**

Read this important announcement, for which there is medical authority and the testimony of thousands of women! There is no longer any need for any woman regularly to suffer from the pain of painful periods. Not a particle of pain any part of the time. And this is done without surgery. Femina is a formula which meets with the world's great medical discoveries.

Try to realize all that feminine means in freedom, comfort, health and happiness. The days you have set aside each month for suffering can be the same as any other, so far as any pain or even discomfort is concerned! Hard to believe, but very easily demonstrated. Femina always works! Most druggists have received their supply of Femina, and it costs a quarter.

## WIDER LA SALLE STREET WORK TO START MONDAY

(Picture on back page.) BY OSCAR HEWITT.

President M. J. Faherty of the board of local improvements announced yesterday that next Monday the actual widening will start on La Salle street.

At that time the wrecking of the old building at the northeast corner of Randolph and La Salle streets will begin. That contract was awarded yesterday for \$4,800.

Dever Worked For Project.

Thus will be started an improvement which former Mayor Dever, Feb.

20 last, characterized as of "supreme importance to Chicago." The new La Salle street is to be 120 feet wide between Washington and Ohio streets, and 100 feet wide from Ohio northward to Eugene street where La Salle street meets the already widened Clark street.

The widened La Salle street, opening into Clark at Eugene, will give easier flow to north and south bound traffic. In addition, it will help motorists bound for the southwest side over Ogden avenue, or coming from that section. Also easier access will be given to the northwest side via Clark and Center streets to Lincoln avenue.

Originally it was estimated that the improvement would cost \$4,757,000; and Charles H. Wacker, former head of the Plan commission, in a protest against delay April 4, 1926, told all Chicago that prices were soaring, because of the lack of aggressive action.

President Faherty said yesterday that street improvement would be rushed. The final order of the court was entered Aug. 17. Wrecking of the first building starts Monday and all other buildings will be torn down as fast as tenants can be got out, according to Mr. Faherty's announcement.

Part of Bridge Nearly Done. One wing of the new La Salle street bridge is almost completed and it is expected to be in operation Jan. 1, 1928. The bond issue for this bridge totals \$3,650,000 and was approved by a majority of \$7,000 on Nov. 7, 1923.

In the final settlement of the matter in court, the total cost of the La Salle street widening to Ohio street will be an estimated \$7,400,000, of which \$7,000,000 represents cash which will be paid to abutting property owners for land taken or buildings damaged.

The construction cost will be about \$368,000.

We will do the construction work just as soon as we get the widened street," Mr. Faherty said. "That won't take long. Within ten days we will get bids and award contracts for wrecking all the necessary buildings between Kinzie and Randolph streets, and the contractor will go ahead as fast as we can get possession for him."

LOOT STORE OF \$60. Two robbers fired a Consumers chain store at 2659 West 74th street yesterday and escaped with \$60.

According to Mr. Faherty's announcement.

## STATE IS READY TO START FINAL WATERWAY WORK

Within thirty days Illinois will start work upon the uncompleted units in the deep waterway system between the great lakes and the gulf, according to Wm. F. Mulvihill, supervisor of Illinois waterway construction.

Recommendation that the state acquire from the Public Service Company of Northern Illinois and the Marquette Hydraulic company over 2,000 acres of land, including water power rights, for \$975,000, and of 44.8 acres of land at Dresden Heights from W. L. Walcott for \$9,750, was approved Wednesday by Leslie Small, state director of purchases, and by the governor. These purchases clear the way to complete the waterway work.

The project consists of canalizing the Des Plaines and Illinois rivers from the end of the sanitary district canal at Lockport, to connect with the navigable waters of the Illinois near Utica, a distance of 66 miles," said Mr. Mulvihill.

## WORLD TOO SOLID TO CRACK UP JUST YET, WE'RE TOLD

Chicago scientists branded as a fairy tale yesterday the prediction of Sir Charles Gregory, British expert, who declared that a huge earthquake disaster within a year will result in an immense crack rending the globe.

The fatal bolt, he was reported to have said, stretches from San Francisco east to the Atlantic and onward through mid-Europe, Turkestan, and Japan.

"This man simply has had a mid-summer night's dream," asserted William H. Hays of North-western university's geological department, said he believed Gregory must have been misquoted.

Was ashamed to be seen—simple remedy brought quick improvement

Munden, Va., Aug. 5—"A while ago I began to be troubled with enlarged pores and blackheads. Then pimples developed, and my face was in a terrible condition. It was disfigured and unsightly. I was ashamed of it. I tried about everything to be had for pimples, but with no good results. I had heard of Resinol Ointment and Soap, so I bought it. I used it for a few days, and the pimples began to fade away. I advise every body with skin trouble to try Resinol. (Signed) Miss Hazel Munden.

## HOOVER REPORT ENDS CHANCE OF SPECIAL SESSION

Not Required for Flood  
Relief, Survey Shows.

(Chicago Tribune Press Service.)  
Washington, D. C., Sept. 15.—(Special.)—Developments here today made it virtually certain that President Coolidge will not call a special session of Congress this fall to deal either with flood relief or the Smith-Vare election dispute in the senate.

A few weeks ago, thought a special session might be necessary, reported to the President today upon his return from a survey of the Mississippi valley that funds for immediate relief needs were available until Jan. 1, with a probable surplus of \$1,000,000 at that time. He found farmers and other flood sufferers in better shape than two months ago.

Longworth Opposes Session.  
Secretary Hoover's report was made at a White House luncheon at which speaker Longworth (Rep., O.) was also a guest. The speaker, during a conference with President Coolidge in the morning, declared against a special session of Congress. Later in the day he said that Secretary Hoover's report made it virtually certain that no session would be necessary.

Representatives Ramseyer (Rep., Ia.), Cole (Rep., Ia.), Hogg (Rep., Ind.), and Hoch (Rep., Kas.), in White House conferences, also urged the President against calling a special session.

Another factor influencing the President was the publication of a report from the war department that it will not be possible for the army engineers to have their report on flood control recommendations prepared before Dec. 1.

1. The President had announced his intention of awaiting this report before making his recommendations to Congress.

Speaker Longworth advised Mr. Coolidge that his experience in Congress had convinced him that more could be accomplished in whipping flood control legislation into shape at a regular session. He declared that he could see no possible advantage to be gained through early convening of Congress.

Flood relief and tax reduction will have preferred place on the legislative calendar, Mr. Longworth stated, following his talk with the President. The speaker is also in favor of an adequate naval program.

Secretary Hoover's Report.  
Secretary Hoover, in his formal report to the President on the progress of relief work by the Red Cross and other agencies, stated the greatest measure of rehabilitation "is, of course, the establishment by Congress of effective flood control, for such a measure will greatly restore confidence, security, and credit."

He said 2,000,000 acres of crop land will make no substantial money return this year and that there are about 45,000 persons still dependent for food supplies on outside agencies.

## HIGH SCHOOL BOY SOUGHT AS IOWA GIRL'S SLAYER

Fled Soon After Crime;  
Warrant Issued.

Cedar Rapids, Ia., Sept. 15.—(Special.)—A warrant was issued by County Attorney Walter J. Barnegrove today against Lyle Messner, 14 year old high school student, charging him with the murder of little Kathleen Forrest, whose body was dragged from a hole in the wall of a vacant house yesterday.

Messner fled a few minutes after the child was killed, but he first went home and changed his shirt, which was found in his room today. It was soiled with earth and oleomargarine stains. One was found in the kitchen of the vacant house, where it is supposed the girl was attacked.

Youth Seen in House.  
Hazel Messner, 15 year old sister of Lyle today told the county attorney that she had seen her brother in the vacant house, which is next door to the Messner home, at 545 Tuesday afternoon, and that she called him to supper. She saw two or three little girls playing around the house.

When Lyle went home a few minutes later, he refused to eat his supper, saying the food was cold. He told his mother he was going to take a bath, but changed his shirt instead.

Girl Seized in Yard.  
Virginia Gudus, seven year old playmate of Kathleen, gave damaging information against the youth. She said that when she and Kathleen were playing in front of the vacant house Lyle offered her a nickel if she would go into the basement with him. She refused, she said, and he then grabbed Kathleen by the hands while the others ran away. Kathleen screamed, but Messner held her hands. Virginia did not tell her story until today.

## HIGHT TO TAKE STAND AGAINST MRS. SWEETIN

Mount Vernon, Ill., Sept. 15.—(Special.)—A writ of habeas corpus was issued here today by Circuit Judge Roy Peare for Lawrence M. Hight, former clergyman, now serving a life sentence in Chester prison for the poison murder of Wilford Sweetin. The writ directs that Hight be produced Monday morning in court here, where Mrs. Elizabeth Sweetin, widow of the slain man and the pastor's alleged accomplice, is now on trial.

The request for the writ was the first definite assurance that the prosecution will place the former clergyman on the stand in an effort to have him repeat the story that he once told of how he and Mrs. Sweetin plotted to kill their mates in order that they might be married.

Mrs. Sweetin was sentenced to 35 years in the penitentiary. Because she had been forced to go to trial jointly with Hight, who had made a full confession, Mrs. Sweetin was granted a new trial by the Supreme court. Eight men have been passed for the jury.

## HERRIN PICKED FOR 1928 STATE LABOR SESSION

Call Border Immigration Evil in Report.

BY THOMAS WREN.

East St. Louis, Ill., Sept. 15.—[Special.]—Herrin was selected this afternoon as the 1928 convention place of the Illinois Federation of Labor. State Senator William Sneed, vice president of the Illinois Coal Miners' union, made the appeal which won for Herrin. He announced that despite exaggerated reports about gang wars Herrin was becoming an ideal convention city. One bid had come from the Chicago Association of Commerce to hold next year's meeting in Chicago. Today's session was devoted largely to officers' reports. Edwin Wright, a member of the Chicago delegation, is chairman of this committee.

Oppose Border Immigration.

One section of the report recommended that attention be given by officials of the Illinois Federation of Labor to the large influx of cheap labor entering the United States from border nations. "The conditions and standards of living of American workers must be maintained, and it seems imperative that undesirable immigration be made a matter of immediate regulation," the committee's report says. Delegates from the state federation to the next convention of the A. F. of L. were instructed to aid favorable action there in behalf of flood control. Improvement in working conditions is asked in resolutions presented by Chicago postal workers.

Approve Gasoline Tax.

The state gasoline tax was recommended by the convention because it provides employment for men making materials and hard road building. "Hard roads, averse the report, also makes traveling less expensive for the people of the state."

"The real battle for justice to Illinois miners has just begun," Harry Fishback, president of the Illinois Miners' union, today told the convention. "We are not fearful of the future because our people will stick to the end," he said. "We believed we could arrange an honorable truce with the coal operators at Chicago. But plans went astray. The operators are trying to drive the miners to the verge of starvation."

One resolution today charged that the national broadcasting station is monopolizing the air in broadcasting the Tunney-Dempsey fight.

STEAL TWO FUR COATS.

Three armed men raided a fur store yesterday at 2037 East 75th street and secured with two fur coats valued at \$600. Mrs. I. Warner and her two daughters, owners of the shop, were locked in a rear room.

## SIXTY MILLION TONS OF RAIN FALL IN LONDON IN A DAY

LONDON, Sept. 15.—Since noon yesterday sixty million tons of rain has fallen in London. Last night alone as much fell as during the whole of September last year, and this September seems likely to be the wettest for half a century. The summer in England, in fact, has been literally a wash-out. Big tracts of land between Brighton and Eastbourne are under water, cattle are knee deep in the floods and the late crops are awash.

## Becomes a Bootlegger to Recoup His Fortune

Burton A. Innes and his brother, T. R. Innes, 208 Keith avenue, Waukegan, were held yesterday to the federal grand jury by United States Commissioner Henry C. Bettler in bonds of \$1,500 each on charges of violation of the prohibition laws. A dry agent testified Burton Innes told him that he had lost several thousands of dollars as a contractor and had been operating a still in hopes of recuperating his losses.

## EVERY DOUGHBOY WITH AUTOMATIC RIFLE, U. S. PLAN

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 15.—[Special.]—Radical changes in the arming of the doughboy and the movement of troops and equipment during the next war may follow exhaustive tests of semi-automatic rifles and motor drawn material now being conducted by the war department.

Army officials predict that in future wars virtually every infantryman will be armed with automatic or semi-automatic rifles. Realization by the high command that in future wars each nation will be working toward a preponderance of fire power from infantry units is given as one of the reasons for the unusual interest now being taken in semi-automatic equipment.

A comparative demonstration of the Garand, Peterson and Thompson semi-automatic rifles and the Springfield service rifle with respect to rapidity and accuracy of fire was observed this week by Maj. Gen. C. C. Williams, chief of ordnance; Maj. Gen. R. H. Allen, chief of infantry, and Mr. Gen.

H. B. Crosby, chief of cavalry. The results of these tests have not been made public. It is known, however, that consideration is being given to changes which would result in the assignment of additional semi-automatic weapons to the infantry and cavalry units.

## Cop Disguised as a Hobo Finds Man Who Shot Wife

Learning that Gus Swanson, 28 years old, 236 Roscoe street, had been hanging around Grant park since he shot his wife, Freda, last Saturday night, Sgt. Frank Casey of Town Hall station, disguised himself as a hobo and went in search of the man. Last night he arrested Swanson, who said he became angry when his wife denied him money. Mrs. Swanson was shot while in the home of Wilmer Wickersham, 1875 Ridge avenue, Evanston, where she was employed as a maid. She is still in a critical condition.

## Ends Forty-fifth Year as Postoffice Employee

Joseph Lamb, 63 years old, assistant superintendent of deliveries in the main postoffice, yesterday observed his forty-fifth year of continued service in the postal department by working. Fellow employees presented him with several remembrances.

LAKE VICTIM'S RELATIVES SOUGHT. Grand Haven authorities last night asked the Chicago police to help locate relatives of Ernest Kuhls, 55 years old, found floating in the lake near there yesterday.

## YANKEE KICKS ENGLISH HISTORY FOR BIG BILL GOAL

Scolds Guide in Holyrood  
Palace Bedroom.

BY DAVID DARRAH.

(Copyright 1927, By The Chicago Tribune.)

EDINBURGH, Scotland, Sept. 15.—Mayor William Hale Thompson's history commission ought to give Edmund Cobhill, Maryland farmer, a job. Mary Queen of Scots' bedroom at Holyrood palace, where Lord Ruthven and several wild highlanders seduced Mary's lover, the Italian, Rizzio, some 40 years ago, was the scene of a less historic but more tense encounter today between Mr. Cobhill and an English guide when the American farm bureau delegation visited Scotland's proudest relic.

Mr. Cobhill, who is director of the national organization of American Farm Bureau, took offense at the English guide, who mentioned Queen Mary's connection with the plots which history charges her.

Makes Farmer Angry.

While the party was standing beside the queen's bed, which is more than 400 years old, the guide recounted Mary's intrigue with Rizzio, which angered Lord Darley, her husband at that time, and which made Mr. Cobhill furious today.

"That story is false!" the American farmer shouted.

"It is history," the guide replied.

"History lies anyway," answered Mr. Cobhill.

The first skirmish passed off, but the guide soon afterward told the farmer that Queen Mary never forgave Lord Darley for causing Rizzio's death, and schemed later to bring about the death of her husband, finally succeeding.

"No More, Bum History."

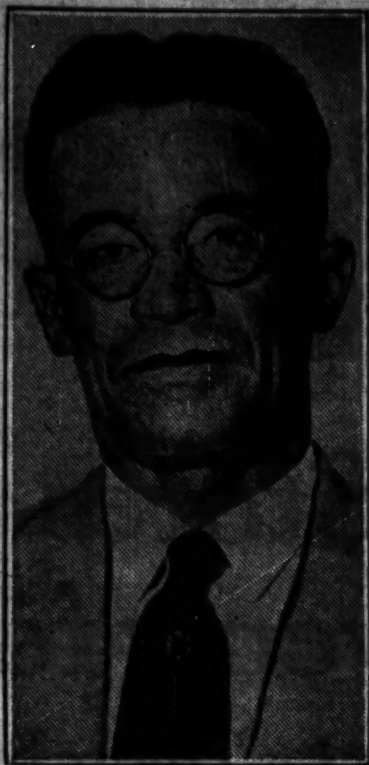

"That is wrong, too," Mr. Cobhill insisted. "She did not do anything of the kind. We want no more of your bum history, and don't be telling us she also plotted against Queen Elizabeth. Give us something better or give me my money back!"

Several other farmers tried to quiet the angry American.

"I object to this interruption of yours," the guide said. Mr. Cobhill, furious, edged around Mary's bed, backed down her private stairway in the corner of the palace, and left the party through the queen's private dressing room. He explained afterward that he did not like to see historical characters travestied by English guides.

Later the farmer's party left for Glasgow, from where they will sail for America on Saturday on the liner Regina, arriving at Montreal on Sept. 25.

## Hotel Guests Driven Out by Explosion of Bomb

Occupants of the Sterling hotel, 1859 West Madison street, were driven out early yesterday when a black powder bomb was exploded in the side entrance. Three feet of brick wall were blown in on the first floor, occupied by a furniture store. John Sauer, 2111 49th avenue, Cicero, son of the store owner, and Lillian Wilkins, 10113 Hoxie avenue, escaped injury as they ducked behind a row of ice boxes. Mrs. Anna Nolan, 15 South Lincoln street, was thrown out of bed by the explosion. John Waterman, owner of the hotel, could offer no explanation for the bombing.

## Woman Expects Money to Be Doubled; Loses \$2,700

Mrs. Katherine Coulours, 58 year old, 1320 West Van Buren street, thought she had found an easy way to become rich. Recently she visited a gypsy who put an incantation on an envelope containing \$1 and the next day she found \$2 there. Mrs. Coulours returned with her husband's savings of \$2,700 and put it in the envelope. Yesterday she sought the aid of police to find the gypsy who had fled when she went to realize her profits.

## ILLINOIS FACTORY JOBS INCREASE, SURVEY REVEALS

The seasonal revival of industrial activity in Illinois resulted in a gain of 1.4 per cent in factory employment for August compared with July. The gain for all industries, as indicated by the state bureau of labor statistics, was 1.5 per cent.

Pay roll increase for manufacturing establishments was 2.4 per cent and for all industries 3.1 per cent. This gain of August over July was at a rate in excess of the seasonal improvement for either 1924 or 1925.

Building has shown a gain of 10 per cent, and the resumption of coal mining by a few coal operators who have signed with the united mine workers, despite the breaking of peace negotiations between the operators and miners, resulted in a gain of 10 per cent in coal mine pay rolls. Road construction has gained 17.9 per cent in pay rolls.

Industries showing declines are partly those in which a seasonal decline is due such as beverages, ice cream, and canning. That the peak of the unemployment trend of 1927 may be past is indicated by a decline of 4.6 per cent in the ratio of applications to jobs at state employment agencies.

The gain in employment in Chicago factories this year is exactly that of the monthly gain a year ago—.01 per cent. Industries taking on more workers in August as compared with July were metal work, cooking, heating, and ventilating apparatus, brass, copper, zinc, habit metal, automobiles, and accessories.

WALKERMAN BOY IS DROWNED.

Wading back from a sand bar in Lake Michigan yesterday, John Anderson, 16 year old Walkerman schoolboy, stepped into a hole and was drowned. He had been swimming with a party of fifteen other youths released from school because of the intense heat.

## Garage Owner Stabbed to Death in Row Over Bill

Roy Stanton, 33 years old, 5554 Glenwood avenue, owner of a garage at 59 East 60th street, was stabbed to death last night in an argument with a Negro customer over a repair bill. Stanton had refused to allow Frank Fuller, colored, 3614 Grand boulevard, to take his machine from the garage before the bill was paid. Fuller suddenly drew a knife and slashed Stanton in the throat, severing his jugular vein. The Negro escaped.

## Only Shadow Boxing for This Jack and This Gene

Jack and Gene swung several vicious upper cuts into the air last night. But in this case, the action took place in the maternity ward of the Lake View hospital, 4450 Clarendon avenue, and Jack and Gene are the 6 day old Wickum twins. The babies, twin sons of Mr. and Mrs. Nels Wickum, 3840 North Ridgeway avenue, were born on the morning of Sept. 9. Jack registered 8 pounds and 6 ounces and Gene weighed 6 pounds and 11 ounces.

## Protecting Your Schoolgirl Complexion

By VILMA BANKY

Use ONLY a true complexion soap on face

THERE are two rules in skin care which should be observed: (1) Keeping the skin clean and pores open. (2) Using a proved soap on your skin.

Present-day beauty culture calls for soap and water. But that means a PROVED COMPLEXION SOAP. Soaps made for general use are often too harsh for the skin.

Thus, largely on expert advice, millions use Palmolive Soap; touch their faces with no other. It is made of cosmetic oils. It is made for one purpose only—to protect and beautify the skin.

Wash the face gently with Palmolive. Massage its creamy olive

and palm oil lather into the skin. Rinse with warm water; then with cold. That is all—it's nature's rule for keeping that schoolgirl complexion.

Do that regularly, and particularly before bed. Never let powder, rouge, or make-up remain on your skin over night. Note how much better your skin in even one week.

GET REAL PALMOLIVE. Get Palmolive today. Costs but 10c a cake. Use no other on your face. But be sure you get GENUINE Palmolive. Crude imitations, represented to be of olive and palm oils, are not the same as Palmolive. Remember that and TAKE CARE. The Palmolive-Pet Co., Chicago, U. S. A.

## PIRATES, TUNNEY-CLASH FISTIC LINAMITE

GENE DROPS HIS  
SPARRING MATE  
WITH LEFT HOOKPuts Weight of Body  
Behind Blows.

Around the Clock

FOLLOWING was the program Gene Tunney observed yesterday at the Cedar Crest Country club training camp. Arrived at 10 o'clock and took a bath. Breakfast at 11 o'clock and came out of the dining room at 11:30 o'clock. Found the place and changed with newspaper men. Gave \$100 to charity. Went to his room at 1 o'clock to have his hair cut, then held open house for newspaper men.

Returned to his room at 2:15 o'clock and for the afternoon. Arrived at the training quarters at 4 o'clock. Appeared in boxing ring and fought the picture at 4:30 o'clock. Fought the picture at 4:30 o'clock and closed at 5:15 o'clock.

Returned to his training quarters, where he received message from Trainer Les Fink. Returned to the clubhouse at 9:15 and closed at 10 o'clock.

Had dinner at 7:30 o'clock and came out of the dining room at 9 o'clock. Chatted with friends and newspaper men and retired at 10 o'clock.

BY WALTER ECKERSALL.

(Chicago Tribune Press Service.)

Lake Villa, Ill., Sept. 15.—(Special.)—Friend Don: Gene Tunney, so far as physical appearance goes, looks ready right now, a week in advance of the battle, to meet Jack Dempsey in defense of his title. Before about 1,000 spectators in the outdoor arena at Cedar Crest he convinced those spectators that he was justified in so doing, just as he told newspaper men in a somewhat brief but tactful interview before his workout. But Walter was there and will tell you about that, Don.

As that big crowd stood around over an hour, Don, waiting between shows for the champion to appear, I could not help thinking of what a bore it would be for you or me, all except the \$1,000,000 prize, to be a champion. Here the storm did not cool the atmosphere much and Gene really did not care to work. He asked a group of newspaper men whether they thought he ought to box, since so many had driven out from Chicago to see him.

Well, Don, there's only one guess what we scribbled answer for that was, "Gene's been waiting several days to see him in the ring. If he didn't want to go through with it he shouldn't have asked us, but he accepted the answer in good faith and put on the best show that has been seen here since his arrival.

At his conclusion a majority of the critics present agreed he looked better than he did a week before the Dempsey bout in which he gained the title.

In the workout, consisting of bag punching, punching the sand bag, and two rounds each with Jackie Williams, Chuck Wiggins, and Billy Vidabek, we twice saw preparations for the contest a week from tonight. With the heavy bag swinging from its support, Gene attacked it in the same manner he fought Jack at Philadelphia. This gave a better line of his expected attack than any of the sparring bouts. There was that sharp left hook to the jaw designed to keep Jack away when he rushes in, followed by his right cross when opportunity presented, and sometimes followed by a series of left hooks to keep an opponent from boring in to the body. It was all against a dummy bag, but it was a reminder of Philadelphia that one could not help figuring Gene intends to pursue the same tactics.

Against Williams, first of his sparring partners, Gene practiced speed in boxing and footwork. In fact, his speed of foot was notably faster than anything he showed in his advance work a year ago. He punched Wiggins mixed with Gene and wrestled around, frequently clowning with intentional wild swings when Gene was in retreat.

Vidabek's mission apparently was to carry a dummy bag, but his crouching, weaving and body blows were akin to those of the challenger. Tunney again Vidabek protected himself by his right cross in the clinches. He planned carefully his opponent's arms until the pair broke or he kept their bodies close together that the body blows which sent Jack Sharkey to defeat would be nullified. To me, Don, this would be the most interesting part of the day, for you know, Don, if Gene could keep Jack at long distance his title would be nullified.

I'm just giving you these impressions because you know I never have felt you could watch a man in training and tell what he would do in the ring, for most opponents are not as easy as sparring partners and they are not as considerate either. But whether he wins or not, I think Tunney is taking this thing seriously. He fairly oozes confidence and confidence always is a ring asset unless it becomes overconfidence. Will be in the office tomorrow.

Chas. with Newspaper Men.

The champion invited the newspaper men to his room shortly after noon. He asserted he would be glad to fight in England, if he is still champion. He reported Tex Rickard had announced he would receive over a million dollars to be his on the theory such statements brought unpleasant talk. He explained he slept about fourteen hours a day and that his appetite was good. He explained of the heat and humidity it was a good thing he was in shape when he left his camp at Speculator, N. T. Tunney mentioned Dempsey's name only once.

The champion was examined today by Dr. Joseph Russell, the boxing commission physician. Dr. Russell reported Tunney has a blood pressure of 110, normal, 64; after exercising, 110. He said the title holder was in perfect condition.

Manager Billy Gibson announced that a meeting would be held with the boxing commission next week when preliminary governing the contest will be discussed. Leo P. Flynn is looking after the interests of Dempsey, also will be present.

The champion will do his last boxing on Monday. He will spar tomorrow and do light work Saturday but no boxing. He will punch the small bag and wrestle with the large bag on Tuesday. He intends to come into Chicago on Wednesday, the day before the fight and will step at the hotel Sharkey.

PIRATES SUBDUED  
BRAVES, 2-1, FOR  
EIGHTH IN ROWHill Hurts 22d Victory of  
Season.

Pittsburgh, Sept. 15.—(AP.)—Batting opportunely behind brilliant pitching by Carmen Hill, the Pittsburgh Pirates continued their march pennantward today by defeating the Boston Braves 2 to 1.

It was the Corsairs' fifth straight triumph over the Braves, their eighth victory in a row and Boston's twelfth consecutive defeat. Hill has been defeated nine times and has won 23 games.

The game was a hurling battle between Hill and Bob Smith. The Braves' tally came in the second inning on successive singles by High and Four. The league leaders tied the score in the sixth. Hill singled but was forced by Lloyd Waner. Comorosky then lined to Bancroft, who threw wild in an effort to double Lloyd Waner at first base, and the speedy Pirate went to second. Paul Waner scored Lloyd with a single to right. The game was won in the next inning on Traynor's double single by Harris and Earl Smith. Score:

## BEDWELL HORSES WIN TWO RACES AT HOMEWOOD

Vellas Beats Spanish Lay;  
Pays 10 to 1.

### BY FRENCH LANE.

St. Guy Bedwell of Maryland added the English bred Vellas for the Avon handicap at Washington Park yesterday and then watched the horse "mother his field and win by a length at odds of 10 to 1 from Frederick Grahamer's Spanish Lay.

Thirty minutes later he added his 3-year-old La Morte for the Merchants' purse. He stepped into the infield and watched La Morte make a show of the stylish hand behind him. Harbort finished second and Bathhouse John Coughlin's Winifred third. La Morte was at nearly 5 to 1 in the betting.

### Colonel Steward Beats.

The victory of Vellas brought the downfall of the English bred horse, owned by Jerome Rees of Kentucky, never got to the races until this year as a 5-year-old. He had won his first five starts easily, the Washington Park regulars believed he was invincible. They backed him with confidence until he was about an even money favorite at post time.

The old Colonel started out as if he was going to roll up his sixth straight victory. He was leading at the end of the first half, but Vellas was right with him and when they turned for home, Jockey Clelland had to give Vellas his head to go on past the faltering Colonel Steward. That one drive plus the 116 pounds Colonel Steward was carrying, brought about his defeat.

### Finishes in Last Place.

He dropped back and back until he was staggering and faltering at the finish and in last place Vellas had given him a terrific licking as they turned into the stretch. Spanish Lay moved up resolutely in the last few furlongs, but could not get to the finish. Bedwell color bearer, Frank McMahon was a distant third.

La Morte's race was a corker and the favorite to fall in this event was Iron Mark II, the big bay from California. He never got into a good running stride and was lucky to be fourth.

Old Kay Spence trotted out his good 3-year-old, Billy, in the Mozart purse which was the third allowance affair on the card. He had to take 1 to 2 for his money but was a handy winner, after Jockey Pool was all but left at the post on the son of Royal Canopy. Keeping Time finished second, and Less K. was third.

### Lavan, Ex-Major Leaguer, to Coach Kansas City A. C.

Kansas City, Mo., Sept. 15.—(AP)—Appointment of Dr. John Lavan, manager of the Lincoln, Neb., Western League baseball team, as assistant athletic director of the Kansas City Athletic club was announced today by W. J. Squire, president of the club.

Lavan was player-manager of the Kansas City American Association club in 1924 and 1925, and played with both St. Louis major league teams.

## Martin Wins at Flossmoor in Golf Play

Nearly 200 frivolous golfers arrived as late as Flossmoor to compete in the annual frolic yesterday that the last to finish had to send a caddy ahead to light a match at the flag and listen for the thud of the falling ball, which is a reasonably good indication that the 149 entrants were enjoying themselves in the course, to say nothing of the traditional saddle of mutton dinner which came still later.

Russell Martin, home club star, won the milk-shake bet for low gross for 34 holes with twin rounds of 74, a total of 148. His morning and afternoon rounds were also equally tricky in that he had ten birdies and one eagle in the 34 holes and yet was two shots over par in each eighteen.

A couple of balls in the water and a couple of other out of bounds cost him several of the lost shots. Second low gross went to Dick O'Hara of Calumet with 34-32-148. Ned Sawyer shot 76 in the morning, but was in one of the foursmen that finished by moonlight, so he had to be content with low gross for the morning. The prize winners:

Low gross, 36 holes, Russell Martin, Flossmoor, 74-32-148.  
Second low gross, 36 holes—C. A. Roberts, Calumet, 84-32-146.

COTTON SLUMPS  
\$6 A BALE ON U. S.  
PRICE FORECAST

Reported predictions of lower prices for farm products by the government's bureau of agricultural economics was the basis for heavy selling of cotton yesterday. It turned a fairly strong market that had opened 10 to 15 points higher into a weak and declining one. There were reductions extending to around 25 cents from the extreme high point, to a new level on the present down turn. At the finish net losses on futures in Chicago were 100 to 117 points, with an extreme loss equal to 24 cents a bale from the day's high level.

In other markets, net losses were 111 to 121 points on futures, with spots off 115 points. The latter made New York 21.40c and New Orleans 21.40c, with Houston and Galveston 21.40c. Liverpool was strong and higher early, with the close 15 to 17 points better than the previous day, with spot sales 10,000 bales.

Higher temperatures prevailed over the entire cotton belt, which, it was said, may check weevil activity and at the same time help the plant overcome some of the loss ground. There was generally clear weather over the greater part of the cotton region, with high temperatures, the only rain of consequence being a heavy fall at New Orleans and scattered showers over Texas.

TRUSTEE: UNION BANK & TRUST CO. OF LOS ANGELES

The following information has been furnished by Mr. L. Blumer, President of Sun Realty Co.

LESSEE  
The Barker Bros. Building is under lease to Barker Bros., Incorporated, for a period of 35 years from January 1, 1926, on a basis which provides a net annual rental, available for interest and sinking fund of this issue, of \$285,000.

Barker Bros., founded in 1880, is one of the largest retail establishments in the United States specializing in household furnishings and office equipment, with a gross annual business which, we are advised, has averaged about \$15,000,000 for the past three years and net annual profits in the same period averaging in excess of \$1,130,000. The balance sheet of Barker Bros., Incorporated, as of December 31, 1926, certified by Messrs. Price, Waterhouse & Co., Certified Public Accountants, shows a net worth of \$8,068,993.26.

BORROWING CORPORATION  
The bonds are the direct obligation of Sun Realty Co. This corporation owns and has under lease a large amount of valuable property in the central business district of Los Angeles, including many of the most important business corners in the city. The balance sheet of the company as of May 1, 1927, after giving effect to this financing, shows a net worth of \$16,028,079.74. Net earnings of the company for the year ending December 31, 1926, as reported by Messrs. Haskins & Sells, Certified Public Accountants, were \$877,183.04.

SECURITY  
The bonds will be secured by a closed first mortgage on the leasehold estate in the land described below

These bonds are offered with, as and if issued and received by us, the integrity of the issue and all legal details, except questions of title, are subject to the approval of Messrs. L. Blumer, President of Los Angeles for the borrowing corporation, Messrs. O'Malley, Milikin & Tuller of Los Angeles and Messrs. Haskins, Beckman, Levenson & Levinson of Chicago for the lender. Title Insurance and Trust Company, of Los Angeles, will issue its bondholders policy of title insurance in the total amount of the bond issue. It is expected that definitive bonds will be ready for delivery in Chicago on or about October 4, 1927.

PRICE: 100 and accrued interest to yield 6%

stock ruled strong, a few baby beef butchers reaching \$15.75. The calf trade was a feature making another advance, selected calves at \$17 being highest since 1920.

Buyers scored in the hog market yesterday, forcing the general average lower for the first time since Aug. 23, when the sensational upward movement of prices commenced. Top lowered to \$11.10 paid for fancy 34 lb. average, with general average of 10c at \$10.75. Prices declined mostly 10c, butchers and packing now in spots selling as much as 5c under the high point.

Wednesday. Receipts at 24,000 were smallest for Thursday since middle of last May, but, with shipping orders unusually small, market weakened as the day progressed. About 12,000 were estimated left at the close.

Range lambs at \$14.00.

Notwithstanding the bearish attitude of local packers, encouraged by a 5c slump in native lamb early, salesmen succeeded in holding range stock to a steady basis on slow afternoon rounds yesterday. Best available topped the list at \$14.00, with natives bringing upwards to \$13.25 and bulking up at \$12.75@13.00.

Feeders were quoted at \$12.00@12.50. Aged and yearling sheep showed little change.
